Purpose of the Ministry

The purpose of the British Columbia school system is to enable the approximately 560,000 public and 83,000 independent school students, and over 2,300 home-schooled children, enrolled each year, to achieve their individual potential and to acquire the knowledge, skills and abilities needed to contribute to a healthy society and a prosperous, sustainable economy.

To achieve this objective, the ministry places student learning at the centre of its mandate. As specified in the [Statement of Education Policy Order](#), the ministry defines this mandate as developing the Educated Citizen, characterized by the intellectual, human and social, and career development of students.

To this end, the ministry provides leadership and funding to the K-12 education system through governance, legislation, policy and standards. The ministry's role in helping to meet the purpose of the school system involves co-governing, with boards of education, the K-12 education system, working closely with a network of partners. Specific roles and responsibilities are set out under *the School Act*, *Independent School Act*, *Teachers Act*, *Library Act*, *First Nations Education Act*, and accompanying regulations.

Ministry Goals, Objectives and Performance Measures

The Ministry of Education's goals are to help government achieve the following three commitments to British Columbians:

- The first commitment is to make life more affordable. British Columbians are counting on government to make their lives easier by containing costs and service fees.
- The second commitment is to deliver the services that people count on. Government services touch the lives of British Columbians every day, and there is so much more that we can – and must – do to provide these services where and when people need them. Additionally, in many cases, critical programs and services are delivered by Crown Corporations, and our Ministry will work with Board Chairs to improve levels of service to citizens.
- The third commitment is to build a strong, sustainable, innovative economy that works for everyone. Our government believes that all ministries and public sector organizations have a role to play in supporting broad-based economic growth, developing poverty reduction strategies, and helping create good-paying jobs in every region of the province.

Integrating with these priorities is government's commitment to true, lasting reconciliation with First Nations in British Columbia, as we move towards fully adopting and implementing the United Nations Declaration on the Rights of Indigenous Peoples and the Calls to Action of the Truth and Reconciliation Commission.

Beyond our work in supporting these commitments, the Minister of Education has been tasked in the [mandate letter](#) to achieve the following specific objectives and performance targets:

- Fast-track enhancement to K-12 education funding.
- Review the funding formula to develop a stable and sustainable model for the K-12 education system.
- Provide additional annual funding to ensure students have the school supplies they need to succeed.
- Create an ongoing capital fund for school playgrounds.
- Make schools safer by accelerating the seismic upgrade program.
- Work in partnership to build and upgrade schools in every region of the province.
- Implement the new First Nations history curriculum, develop full-course offerings in Aboriginal languages and implement the educational Calls to Action from the Truth and Reconciliation Commission.
- Implement BC's new school curriculum and provide new technology, lab equipment, learning material and professional development support for teachers.

Our Ministry will continue to develop specific objectives and performance measures for inclusion in our 2018/19 Service Plan, which will be released with *Budget 2018*.
