Budget 2025: Standing Strong for BC

- Budget 2025 helps B.C. stand strong together in the face of uncertainty by:
 - Strengthening health and protecting the services people rely on
 - Growing the economy by protecting and creating good jobs and investing in critical infrastructure
 - Reducing costs for families
 - Making our neighbourhoods and communities safer

2024/25 Updated Third Quarter Forecast

- The updated 2024/25 forecast projects a deficit of \$9.1 billion, which is a \$273 million improvement from the Fall 2024 Update
- Key changes since the Fall 2024 Update include:
 - Increases to corporate income tax revenue due to prior year adjustments
 - Declines in other tax and natural resource revenues
 - Higher projected net income from ICBC
 - Higher projected statutory spending

Summary of Current Economic Situation

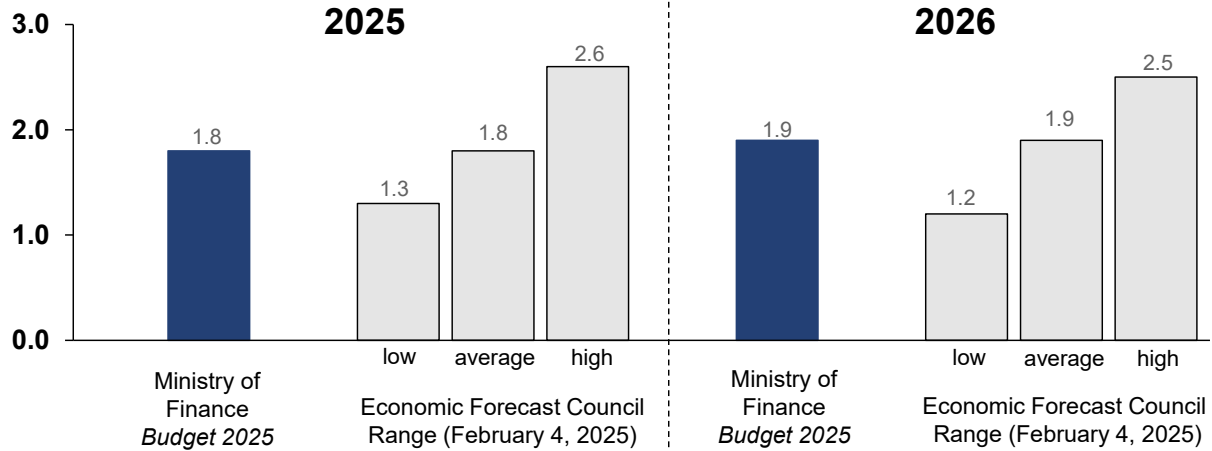

Indicator	Performance
Labour Market	Jobs increased by 66,100 in 2024 compared to 2023; the unemployment rate averaged 5.6% in 2024 overall and has edged up in recent months to reach 6.0% in January 2025, remaining below the national average
Population	Population growth was strong at an increase of 2.2% in October 2024 compared to October 2023, driven by international migration; the Federal Government's lower immigration targets announced in October 2024 will result in slower population growth
Consumer Spending	Retail sales were up just 0.2% in 2024, a continuation of the previous year's weakness, due to impacts of high prices and interest rates
Inflation & Interest Rates	Inflation was 2.2% in January 2025; interest rates have come down and further rate cuts are expected
Housing Market	Housing starts remain strong and above the 10-year historical average, despite a 9.2% decrease in 2024 from record highs the year before; home sales activity was subdued in 2024
Exports	The value of merchandise exports was down 3.0% in 2024, due to lower prices for key commodities, and U.S. tariffs pose a risk to the economic and fiscal outlook

Tariff Scenario Assumptions

- The impacts from U.S. tariffs are very challenging to predict; the scenarios presented here are based on different assumptions at different points in time

January 16 Scenario	Budget 2025 Scenario
Base case: Fall 2024 Update	Base case: Budget 2025
25% U.S. tariffs on all goods	10% U.S. tariffs on energy products, 25% on all other goods
Full retaliation by Canada	Partial retaliation by Canada
No monetary or fiscal policy response	Interest rates cut and federal government supports
Starts in April 2025 and remains until 2028	Starts in March 2025 and remains until 2029

Potential Impacts of U.S. Tariffs

Indicator	January 16 Scenario	Budget 2025 Scenario
Real GDP (cumulative loss)	\$69 billion by 2028	\$43 billion by 2029
Employment (job loss)	124,000 fewer jobs by 2028	45,000 fewer jobs by 2029
Unemployment Rates (increase)	6.7% in 2025 & 7.1% in 2026	6.4% in 2025 & 6.7% in 2026
Corporate Profits (annual decline)	\$3.6 to \$6.1 billion	\$3.2 to \$5.0 billion
Revenue (annual loss)	\$1.6 to \$2.5 billion	Up to \$1.4 billion*

*If combined with economic impacts in the Budget 2025 base case, revenue loss could be between \$1.7 billion to \$3.4 billion annually

Province's Three-Point Tariff Strategy

Strengthen

B.C.'s economy, including expediting projects and supporting industry and workers

Diversify

trade markets for B.C. products so the provincial economy is less reliant on U.S. markets and customers

Respond

to U.S. tariffs with tough counter-actions and outreach to American decision-makers

14

Delivering Critical Infrastructure

- \$45.9 billion of taxpayer-supported capital over the fiscal plan to deliver critical infrastructure and support 180,000 good-paying jobs

15

Fiscal Sustainability

Net-liabilities as a Percentage of GDP

- Expenditure management and program reviews introduced to reduce spending and ensure programs are efficient, effective and sustainable
- Successive budgets will focus on flattening debt-to-GDP over time, ensuring B.C. retains one of the lowest debt-to-GDP ratios compared to our peers

Key Risks to the Fiscal Plan

- Heightened uncertainty surrounding restrictive global trade policies, immigration levels and population growth
- Weaker global economic activity and ongoing geopolitical conflicts that affects potential volatility in the economic and fiscal outlooks
- Increased costs and demands for government services, such as health care, social programs and disaster recovery
- Mitigated through prudence in the fiscal plan, including Contingencies of \$4 billion in each year of the fiscal plan

Budget 2025 Summary

- At a time of global instability, Budget 2025 helps B.C. stand strong, together
- Defends key services, builds a stronger economy, reduces costs for families and supports safer communities
- Invests in critical infrastructure to provide good paying jobs and help grow the economy now and for the future
- Works together with people, First Nations, businesses and communities to secure a brighter future for B.C.
